Weather based Agro advisory

Aman paddy

- Complete harvesting as early as possible otherwise caterpillar attack take place due to high humidity and dense morning fog.
- Prepare low land area near water source for seed bed of boro paddy.

Seed should be treated properly before sowing for getting less disease attack .

Tomato, brinjal, chilli

- Now in vegetative stage
- Chance of blight attack due to dense morning fog and high humidity.
- Apply SAF or Karzet@1ml per liter of water with good sticker.
- Spraying time should be maintain after early morning when the leaves remain dry after foggy weather.
- No irrigation should be given now.
