General Advisory:

After harvesting of rabi crops farmers are advised to test their soil from certified sources or university and enhance soil health.

SMS Advisory:

After harvesting of rabi crops farmers are advised to test their soil from certified sources or university and enhance soil health.

Crop Specific Advisory:

Crop(Varieties)	Crop Specific Advisory
RICE	Start harvesting of 80% matured grains and stored it in a safe place. Don't burn the stubbles after harvesting. It creates air pollution and also deteriorates soil health. Mix it with soil for next crop for better soil health and productivity.

Fisheries Specific Advisory:

Fisheries(Varieties)	Fisheries Specific Advisory
COMMON RIVER FISH	Drain out excess water and keep clean pond water. Use Terramycin tablets to control bacterial diseases.
