Monsoon is expected to arrive in the second week of June in West Bengal. Prepare the land thoroughly for Kharif Rice using premonsoon rainfall.

### Crop Specific Advisory:

Crop(Varieties)	Crop Specific Advisory
RICE	Monsoon is expected to arrive in the second week of June in West Bengal. Start seedbed preparation for low or medium land and for upland rice main field may be prepared. Prepare the land thoroughly for Kharif Rice. Use the premonsoon rainfall. Apply 2-3 ton well decomposed FYM at the time of final land preparation. Collect good quality seed and treat the seed with carbendazim @ 2 gm/Kg or trichoderma viride seed to avoid seed borne disease in the main field.

### Live Stock Specific Advisory:
