RH is expected to be 75% to 92%.Maximum temperature is expected to be around 30.0-35.0 deg C and minimum temperature is expected to be around 26.0 - 27.0 deg C.

General Advisory:

Vegetable farmers are requested to strengthen drainage to avoid water logging in the low lying area. Don't use fertilizer or pesticide in the rainy days because it may be washed out . People are requested to take safe place during lightning or thunder.

SMS Advisory:

Jute farmers are requested to use Crijaf Sona at the time of retting to hasten the procedure and increase the quality of fibre .

Crop Specific Advisory:

Crop(Varieties)	Crop Specific Advisory
RICE	Kharif paddy :Vegetative Stage : Weeding : Hand weeding can be started to control the weed at initial stage. For chemical control Pretilachlor 50%EC @500 gm per acre may be sprayed within 2-5 days after transplanting.
JUTE	Utilising rain water of last few days retting may be continued . Crizaf-Sona powder may be added at the time of retting to reduce the retting time and improve the quality of Jute fibre.
